06 / SCIENCE & INGREDIENTS

SCIENCE. REFINED.

The formulation philosophy behind ANGELIASEYE® eye care.

FORMULATION · RITUAL · PRODUCT LANGUAGE

Beauty, under the surface.

ANGELIASEYE® approaches eye care as a considered ritual: purposeful formulas, refined textures and carefully designed objects that belong together as a collection.

PRECISION

Formulation is considered around the delicate eye area.

RITUAL

Application becomes a moment of care rather than another task.

DETAIL

Packaging, texture and presentation are treated as part of the experience.

Six expressions.

Each product has a distinct role within the eye-care collection.

Ingredients with purpose.

The ingredient story should be communicated through verified formula documentation, not decoration. This section is intentionally designed to accept final INCI and substantiated ingredient claims when approved.

FOR FINAL APPROVED COPY

- Full INCI list for each SKU
- Function of key ingredients
- Concentration or active level where legally and commercially appropriate
- Testing / substantiation references where available
- Usage and compatibility guidance

Precision in what we say.

ANGELIASEYE® communications should distinguish product description from substantiated performance claims. Clinical, instrumental, consumer-study or regulatory statements belong here only when supported by the corresponding documentation.

01 **FORMULA**

INCI, specifications and manufacturing documentation.

02 **TESTING**

Available instrumental, safety or compatibility testing.

03 **CONSUMER**

Consumer perception or usage-study results, where available.

04 **REGULATORY**

Market-specific requirements and approved claim language.

A ritual, not a routine.

The eye-care collection is designed to move through different moments of care: daily hydration, targeted brightening, firming, overnight recovery and additional ritual treatments.
